

TTM news

The Faculty of Traditional Thai Medicine received a visit from seven distinguished delegates from the Royal University of Bhutan, on June 1, 2010. The visitors led by Dasho Pema Thinley, Vice Chancellor, Royal University of Bhutan, aim to visit universities, research institutes and organizations, study and training centers dealing with academic programs, research and training in the area of rural development, entrepreneurship programs, traditional medicines, engineering. Through meeting and interactions with relevant officials, university staff and other professionals, the expectation of the study-visit is to establish an understanding with the relevant institutions for networking and collaboration.

Associate Professor Dr. Sanan Subhateerasakul, Dean of the Faculty of Traditional Thai Medicine welcomed them to the Faculty of Traditional Thai Medicine and Traditional Thai Medicine Hospital. Our visitors were keen to learn more about TTM and they discussed the details of Traditional Medicine with representatives from our staff during the welcoming meeting. They also visited the faculties of Agro-industry and PSU-Business Incubation Center.
